

SNYPER-LTE

Setting the standard in 4G LTE Cellular Signal Analysers

The **SNYPER-LTE family of signal analysers** are sophisticated yet easy to use with a large and bright full colour display. The range is offered in both 2G / 3G / LTE and 2G / LTE Cat M / LTE Cat NB IoT cellular technologies to cover all network cell towers in use today. The SNYPER is a hand held, battery operated unit and can operate for several hours between charges (depending on use). It analyses all cellular signals from any network at any particular site being surveyed, and displays the results in a simple and easy to understand format.

YOUR SNYPER

Weight	200g (SNYPER only) 207g (with Antenna)
Dimensions	141 x 76 x 36 mm
Operating Temperature	-10 to +50 deg C
Storage Temperature	-20 to +50 deg C
Humidity	20 to 85% RH non-condensing

WHAT THE KIT INCLUDES*

- » SNYPER Unit
- » Multi Region Power Supply
- » USB Cable
- » Car Charging Cable
- » Omnidirectional Antenna
- » Directional Antenna
(Spectrum and Graphyte Only)
- » Tripod and Cradle
(Graphyte Only)
- » Hard Carrying Case

 **Siretta**
Enabling Industrial IoT

**USB CHARGING | 2000mAh BATTERY CAPACITY | SUPPORTS ENGLISH, FRENCH, GERMAN, SPANISH AND ITALIAN |
REAL TIME DEBUG LOGGING | CE APPROVAL FOR EU MODELS | FCC APPROVALS FOR USA MODELS**

*Analyser Only option available for SNYPER-LTE+ (EU) and SNYPER-LTE+ (USA) analysers. Analyser only option includes; SNYPER analyser, USB cable and 2 x antenna, with cardboard packaging.
